**Save  
101,000 Liters  
of water per  
Urinal Per  
Year !!!!**

**Bio Urinals**

## Bio Urinals

Millions of Litres of fresh water are flushed down the drain each year for sanitation purposes there by wasting invaluable resources and money. The Bio Urinal Blocks are a proven system that uses Microbial Technology to assist Companies and Institutions reduce their water and sewage charges. The Bio Urinals Blocks System for the Washrooms is completely waterless!

Verdes Innovative technology uses naturally occurring microbes in turning washrooms into a healthier and more hygienic environment. Conventional and chemical responses fail because they address only the symptoms whereas the microbes are effective as they naturally disrupt the processes that cause problems with urinals.

### Problems we Face Regularly

- ⦿ Even after cleaning regularly -washrooms stinks.
- ⦿ Fats, uric acid scale & solids build up in traps.
- ⦿ Routine blockages in the drain pipes.
- ⦿ Replacement cost for traps.
- ⦿ Littering around bowl and floor.

### Why Use Bio Urinal Blocks

- ⦿ 100 % Biodegradable.
- ⦿ Removes the cause of odors.
- ⦿ Prevents blocked traps & pipes.
- ⦿ Remarkable saving on water bills.
- ⦿ Suitable for all types of urinals & troughs.
- ⦿ Safe to use.
- ⦿ Low Cost.
- ⦿ No Extra Maintenance.
- ⦿ Easy Installation (No special Installation is required).
- ⦿ The bacteria contained in this product are non-pathogenic.
- ⦿ Suitable for all types of urinals, stainless steel, porcelain and ceramic troughs.
